WILMOT UNION HIGH SCHOOL

Dear Families of Wilmot Union High School:

We would like to begin by showing you what we will have on the website under our Skyward/Otus tab. This chart explains the current uses for both systems and where to navigate in order to accomplish certain tasks.

What should I use these for?	
Skyward (click for login page)	Otus (Click for login page)
- Teacher Communication - Attendance - Check discipline reports - Pay school fees or balances - Lunch account information - Student records - Grade Transcripts (historical grades)	- Teacher Communication - Current grades in individual classes - Learning progress in essential standards - Class Activity (assigned v graded)

We would now like to take a moment and show you two things. Below are links to two videos created this week. This first video shows you how to find all the information needed to create your parent account in Otus. This requires you to sign into skyward to find your student's specific login information. The second video will briefly go over how to navigate the Otus platform from your parent login screen. This will go over things like seeing your student's profile, checking their grades, and sending messages to teachers. We plan on doing several videos like this throughout the school year to show more tips and tricks of this new grading communication tool. If you have any other questions about Otus, please contact our AP of Curriculum and Instruction, Don Norwick norwickd@wilmoths.k12.wi.us
