

WILMOT UNION HIGH SCHOOL DISTRICT

March 22, 2019

Dear Parent(s),

Like many other schools, Wilmot Union High School (WUHS) has seen a recent spike in student vaping.

Vaping is prohibited by the WUHS Student Handbook. While we try to proactively educate to prevent any incidents, we are not always successful and there will be consequences if a student vapes on school property.

Below you will find some examples of different type of vapes and the corresponding consequences:

If a student is in possession of any of these materials that contain nicotine, the consequences for each offense include, but are not limited to:

- Minimum of a 1 day out of school suspension
- Referral to the School Resource Officer (SRO) for a ticket for possession of nicotine (\$200.50)
- Additional infractions in this category could result in a recommendation of expulsion

This vape contains THC, the active ingredient in marijuana. If a student is in possession of any of these materials, the consequences for each offense include, but are not limited to:

- A 5 day out of school suspension
- Being referred to the SRO which could result in a criminal charge or a ticket for possession of marijuana (\$452.50), and a ticket for possession of drug paraphernalia (\$263.50)
- Principal Review meeting with a possibility of recommendation for expulsion

It is our hope that through the efforts of home and school, our students will refrain from vaping. We strongly encourage you to have a conversation with your child about the dangers of this behavior.

With Regards,

Dan Bender, Associate Principal

Christy Welnstock, Associate Principal
